contact@mahindrassg.com

**M**SSG is a specialist risk consulting firm headquartered in Mumbai, India. Our team of experts bring rich experience from the fields of Defence Forces, Security Architecting, Crisis Response and Change management. We have pan-India presence and the capability to operate out of several global locations.

**W**e help our client's mitigate risk in the following manner:

- Assessment of risk exposure that the organization has in terms of physical, personnel and information assets.
- Formulate and implement a de-risking strategy that hardens the organization across Physical locations, Technology, Processes and the Personnel (including those who man them).
- Changing the "People-Culture" and increasing their participation in the Risk Mitigation program.
- Providing an 'embedded' team that will ensure implementation and sustenance of the security initiatives.

**A**t MSSG we realize that improving security is an ongoing and a structured process.

This begins with creating the right environment for improvement, viz , getting the buy-in of all stakeholders, establishing return on investments and clear

### INTRODUCTION

Mahindra Special Services Group is India's leading corporate security risk consulting firm that helps organizations reduce risk and enhance competitive advantage. We protect physical & information assets and minimize their losses. Our distinctiveness lies in our 'People-Centric' and 'outcome oriented' approach; endorsed by clients across scores of implementations.

measurability of the success of the initiative.

Our 'Discovery' assessment gives decision makers an accurate picture, enabling them to focus on areas of concern and prioritize resources.

Our approach embeds a multidisciplinary team into the client's environment where they understand the business needs & cultural constraints of the client and implement practices that are best for the company. We undertake the responsibility of making the change happen .

Our clients have found the 'People-Centric' approach towards Corporate Security more effective in getting employee participation, thus ensuring success of the project.
