MSSG is a specialist risk consulting firm with its headquarter in Mumbai, India. Our team of experts bring rich experience from the fields of Defence Forces, Security and Business Continuity Architecting, Disaster Recovery and Change Management. We have pan-India presence and the capability to operate out of several global locations.

We help mitigate clients' Business Continuity risks as under:

- **Assessing** organization's **current state** of business continuity preparedness and expressing it in tangible terms
- **Formulating a** business continuity and disaster management **strategy** that safeguards organizations across Physical Locations, Technology, Processes and the Personnel
- Changing the **"People-Culture"** and increasing their participation in the Business Continuity and Awareness programs
- **Assisting** in implementation, sustenance and certification (BS 25999)

Our range of services in BCM Consultancy include:

- Gap Assessment, BCM Design, Implementation, Sustenance & Support
- BCM Audits
- Executive and employee Training & Awareness Programs
- Certification assistance
- Scenario building exercises
- Change Management

INTRODUCTION

Mahindra Special Services Group is India's leading corporate security and business continuity consulting firm that helps organizations reduce risk, ensure business continuity and enhance competitive advantage. We help protect people, assets, information and reputation. Our distinctiveness lies in our 'People-Centric' and 'Outcome-Oriented' approach; endorsed by clients across scores of implementations.

- Specialized assistance for specific stages of BCM cycle

At MSSG, we strive at improving BCM posture through an ongoing and structured process. Our approach embeds a multi-disciplinary team where they understand the business needs, potential threats and vulnerabilities & cultural peculiarities of the client, and implement practices that are best for the company. We undertake the responsibility of making the change happen.

Our clients have found the 'People-Centric' approach towards business continuity and disaster recovery more effective in getting employee participation, thus ensuring success of the project.
